

**Job title:** Investment banking Analyst / Associate at a healthcare focused transaction advisory firm.

**Location:** Andheri (JB Nagar / Chakala Metro station), Mumbai

GCV life Pvt Ltd is a boutique investment banking firm with a track record of successful deal closures in the healthcare industry. The business has three verticals i.e. mergers & acquisition, Capital raiser for start-ups and technology out-licensing services for unique product / technology. The incumbent will report to the head of business & will be primarily responsible for deal execution across all the three verticals at GCV Life. The position involves taking ownership of projects & working closely with the Director to successfully close transactions. This position has a lot of client visibility and provides adequate exposure to various healthcare business models.

**Academic / Professional qualifications:**

- Preferably post-graduation in business / economics or healthcare related field or Chartered Accountancy (CA) or Chartered Financial Analyst (CFA)
- Certification in finance desirable

**Work experience and skills:**

- Preferably couple of years of work experience in investment banking / consulting or alternatively experience involving sufficient exposure to business finance. Healthcare industry exposure is desirable.
- Experience in doing business research & extracting data from various sources and generating insights. Ability to derive market size for various industries / applications.
- Good understanding of finance & accounting concepts and ability to interpret and analyse financial statements.
- Ability to build three statement financial model, DCF model, transfer pricing models & scenario planning in excel
- Excellent proficiency in analysing pivot tables & application of various formulas for sorting, classification, financial calculation & analysis
- Ability to create succinct & meaningful PowerPoint presentations in the form of teasers, information memorandums & client reports.
- Excellent client handling skills and ability to deliver on time & simultaneously work on multiple projects.
- Good oral & written communication & a positive personality
