

**Job title:** Investment banking intern at a healthcare focused transaction advisory firm.

**Location:** Andheri, Mumbai

### **About GCV Life Private Limited**

GCV life Pvt. Ltd. is a boutique investment banking firm with a track record of successful deal closures in the healthcare industry. Investment banking intern will be responsible for conducting deal-oriented market research across biotechnology, Pharmaceuticals, medical devices, hospital & other emerging sectors in healthcare industry. This research will contribute towards insight generation which will enable the firm to successfully identify targets/prospects for existing mandates & also enable new business generation. If required, the intern should be willing to travel to a couple of locations to gather field data. The opportunity will also provide adequate exposure to various healthcare business models.

### **Key responsibilities & duties**

- Business research and extracting relevant data from various sources for generating insights.
- Market research on innovative healthcare technology.
- Preparing Teaser / IM for presentation purpose.
- Perform valuation analysis via financial modelling and help to prepare internal investment memos.
- Help support business development, sourcing of early stage companies.

### **Qualification**

Qualification / education: Preferably post-graduation in business or healthcare related sector. Professional qualification or certifications in finance are desirable.

### **Work experience and skills**

- Preferably a couple of years of work experience in any sector in the healthcare industry or alternatively experience involving sufficient exposure to business finance.
- Excellent proficiency in excel.
- Ability to create succinct & meaningful PowerPoint presentations.
- Data analysis and insight generation.
- Learning attitude & self driven.
